

# Alert Level 2 at Greytown School

## SCHOOL IS OPEN

If you are sick, stay at home!  
Ring the office to let them know.

Wash your hands with soap or hand sanitiser regularly.  
Sneeze and cough into your elbow.

Parents only go into classes if they need to (ie: to settle in a New Entrant child, a new child at school or your child is very unsettled.)

Parents and families **MUST** sign in and scan in at the Tracing tables before coming on site.

Parents and families who need to come on-site are required to maintain social distance 2m from others in the school grounds.

School lunches on Wednesdays and Fridays will continue

Primary School children and staff are not required to wear masks, however, it is up to your personal choice. If they do parents need to teach their child/ren how to wear and use their mask safely.

Masks to be worn on public buses if children are over 12 and they are not required on school buses
